

Robust Composite Doors

Strong and durable doors create the perfect finish

Fortis
COMPOSITE

TIMBER EFFECT DOORS WITHOUT THE FUSS. Our 48mm thick solid timber core gives you the strongest and most secure option available in a residential door. Multipoint hook bolt locking provides additional security and peace of mind.

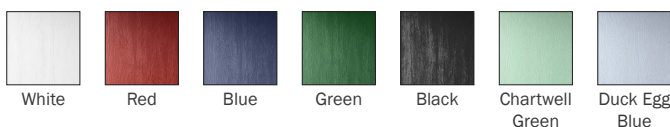

The Fortis door range is an outstanding collection of solid laminate timber core doors that combine classical and modern styling with high performance locking to provide a stunning and secure entrance to your home.

Each solid timber core is completely encapsulated within a highly durable plastic edge banding and two thermo plastic door skins, so you will never have to worry about painting or varnishing your door.

Fortis doors are available in 14 colour options as well as the option of a mobility threshold making it the perfect solution for easy wheelchair or push chair access. A comprehensive range of matching frames is also available with either glass, matching composite side panel or quarter panel.

Fortis doors can be fitted with a Secured by Design endorsed high performance multipoint locking system. Please specify when ordering.
